

Neighbourhood Watch Workshops

To help us facilitate this summer's workshops, please send us information regarding issues you think may be ripe for private prosecution (ie. a breach of an environmental law, lack of enforcement by government, etc.). This information will help us to more effectively answer your questions. Please use the backside or another sheet if you need more room.

What is the environmental issue?			
What law do you think was broken?			
When did the infraction occur?			
What steps have you already taken?			
Have you collected any evidence to prove that the alleged offence occurred?
